I plan to complete my 1st Bachelor's	<u> </u>
() Fall Semester() Spring Semester() Summer Semester	Year Year
My current degree program is	Major
I also plan to complete a 2nd Bachelo	or's of Science degree at the close of ~
() Fall Semester() Spring Semester() Summer Semester	Year Year
This degree program is	 Major

A minimum of 32 additional semester credits of subjects designed by the 2^{nd} degree department are required. This is either 130 credits plus 32 for two engineering degrees or 120 credits plus 32 credits for a combination of engineering and science degrees.

The degree candidate is asked to file this <u>Statement of Intent</u> with the Registrar & Academic Services (RAS) Office, as soon as a decision regarding two degrees is reached.

For students who are working on dual undergraduate degrees/majors, for Federal Student Aid purposes and especially for those who are receiving assistance from the Federal Pell Grant program, you are advised to so order the completion of your undergraduate degrees so that you finish them in the same semester. Whether or not a student applies for graduation, once a student has completed their first Bachelor's degree; they are no longer eligible for Pell Grant, Supplemental Educational Opportunity Grant (SEOG) and other potential Federal Aid programs currently available or available at some time in the future. You should meet with David Martin or Erin Richards in the Financial Aid Office if you have any questions.

Return Completed Form to (RAS) Registrar & Academic Services, O'Harra 201
