

# ART & COLLABORATION

## BROWN BAG SERIES

What is art? Better yet, what does it mean to be an artist? Whatever your definition, it probably does not include you, *right*? So, let me rephrase the question. Are you a creative thinker? Do you look for innovative ways to solve problems?

If you know me, you might know that my definition of *artist* includes everyone... *yes, even you*. We all make choices based on creative intuition. We make decisions based on tastes that have developed and changed over the course of our lives. Each of us brings a unique history to everything that we do. As many of you know, there is great value in this.

In this hands-on workshop, you will work in teams to solve a basic problem. I am anxious to see how each of your past experiences come together to create one unified experience. The result will not be yours to keep, but ours to share.

I hope you can join us.
