ACCELERATED NURSING PROGRAM: B.S. in Nursing

SDSU offers a twelve-month accelerated nursing program at the University Center in Sioux Falls for students who have or will have completed a bachelors degree before the August start date for each entering class. Applications are due by February 25.

Students must have completed the following nursing pre-requisite courses. Acceptable substitutes at Mines are provided in parentheses.

- CHEM 106/106L (or CHEM 112/112L General Chemistry I and Lab: Note that CHEM 106 does not count as a science in B.S. programs at Mines)
- CHEM 108/108L (or CHEM 114/114L General Chemistry II and Lab: Pre-health students are expected to complete the Chem 112/114 sequence.)
- MICR 231/231L (or BIOL 231/231L General Microbiology and Lab)
- PSYC 101 General Psychology
- SOC 100 Introduction to Sociology or SOC 150 Social Problems
- HDFS 210 Lifespan Development (or PSYC 323 Human Development through the Lifespan)
- BIOL 221/221L Anatomy and Lab (or BIOL 121/121L and BIOL 123/123L)
- BIOL 325/325L (or BIOL 323/323L Physiology and Lab online from DSU)
- NSF 315 Human Nutrition, online from SDSU
- STAT 281 (or MATH 281 Introduction to Statistics)
- ENGL 101, ENGL 201, SPCM 101 (or SDSU will allow Mines students to petition for acceptance of our tech comm sequence, ENGL 279 and ENGL 289.)

Please review the information provided on the SDSU nursing website:

http://www.sdstate.edu/nurs/programs/undergraduate/bachelors/accelerated.cfm

Pay special attention to the eligibility requirements, such as the nursing program’s policy on retaking pre-req courses with “D” or “F” grades and the required currency of science courses. SDSU also has two Institutional Graduation Requirements (IGRs) not required at Mines; check the lists provided for alternatives you could take at Mines.
