Course Information
CM 788 Master’s Research Problems and Projects

Instructor: Scott J. Amos, PhD, PE, CPC
Office: CM 123
Phone: 394-1694
Email: Scott.Amos@sdsmt.edu

Description: Independent research problems/projects that lead to a research or design paper but not to a thesis. The plan of study is negotiated by the faculty member and the candidate. Contact between the two may be extensive and intensive. Does not include research courses which are theoretical.

Notes: Variable credit; not to exceed 3 credits toward fulfillment of M.S. degree requirements. (Default is 1 credit, must be changed to 3 for all students enrolling)

Objectives: After completing this course, you should be able to:

- Identify and address the problems of modern day professional construction management.

Prerequisite: CM prerequisites are graduate standing or permission of instructor. The ability developed through undergraduate training to analyze cases, think critically, and express yourself in writing.

Text: Varies

Course Site: https://d2l.sdbor.edu/
All course materials, schedules, learning objectives, assignments, and supplementary materials are posted to a D2L course site that is accessible to enrolled students beginning the first day of the semester.

Topical Coverage: Varies

Onsite or Distance? All CM course offerings serve both onsite and distance learners simultaneously in a common section (M840T).

Course Delivery: This course will be delivered asynchronously with prescribed dates for the submission of deliverables through D2L.
