

This table shows students who graduated with B.S. degrees from SD Mines in **Academic Year 2017 to 2018**. The columns indicate if students are placed, i.e., are working in field or have enrolled in an advanced degree program. The average starting salary for all employed graduates in a given program is compared to the national average for starting salaries for the field in which the graduate was hired.

For information about jobs, placements, and program names, please see the following page.
