You can bring your own phone with most providers listed above. You must have an **UNLOCKED** phone for most of the Pay-As-You-Go options. Please refer to the website or in the store for more information.

There are 2 types of systems, GSM and CDMA

- GSM is Global Satellite Messaging and is common around the world. It is compatible with the AT&T network.
- CDMA is another system common in the US. It is compatible with the Verizon network.
