SAFETY ON CAMPUS
South Dakota School of Mines & Technology is committed to the safety of our campus community. In times of emergency, we want you to think of appropriate campus-wide emergency responses and individual actions that you can take on hand so that you know what to do in these various emergency situations.

Safe Rides on Campus:
Public Safety provides a safe ride service on campus.

Driver Education
To make a drive:
1. Get out of immediate danger
2. Report situation
3. DIAL 911 (on campus phones)
4. If outside the campus area, call Public Safety.

EVACUATION
When a fire escalates or when alarms are activated, always leave immediately.

1. Exit quickly and calmly using the nearest emergency exit and follow instructions.
2. Proceed to evacuation assembly points (SAP).
3. Do not reenter the building.
4. Answer all questions and do not hang up the phone.
5. Ask someone to call Public Safety.

After notifying emergency personnel, notify Public Safety at 605.364.6100. Wait for arrival of Public Safety to assist you in the appropriate location. STAY OUT OF THE BUILDING.

To report an off-campus emergency, DIAL 911. Students, faculty, and staff are encouraged to report all off-campus emergencies.

CAMPUS ALERT

Say Something!

Print Date: August 202

Call Public Safety. Examples of emergencies: Dial 911 and then Public Safety 605.394.6100.

Trust your instincts. If you see something?

• Someone accessing areas unusual or out of place
• Someone acting unusually or out of place
• Dangerous actions or unusual comments
• A person with a weapon

Stay away from windows, doors, and outside walls.

Go to the basement or an interior part of the lowest level: closed, basement, garage.

Stay put and secure the door.

When applicable, go to a pre-designated safe area, such as a closet, bathroom, or hallway.

If there is no safe area nearby or you are in a vehicle, pull over to the side of the road, stop while keeping your hands on your head and move toward a low area.

There is a ‘Tornado Warning’ if a tornado has been detected. Go to the basement or an interior part of the lowest level.

A “Tornado Watch” means that tornadoes are possible. Tornadoes are not a direct threat.

Bombers, biological, or chemical threats.

If you are on campus at the time of a chemical spill:

• Do not provoke the gunman.

• Do not move suddenly.

• Do not speak.

• Do not move.

• Do not open the door.

• Do not allow the gunman to gain control of you.

• Keep others from entering.

• Leave it and evacuate the building.

• Be calm. Be courteous. Listen; do not interrupt the caller. Do not hang up until the caller instructs you to do so.

• Report the threat to someone else by pre-advanced solicitation on campus must contact Surbeck authorizations.

• Call the campus police.

• Notify immediate supervisor, Campus Environmental Health and Safety, or law enforcement.

Emergency shut-off procedures should attempt to identify the problem.

• If the threat is not immediate, the emergency shelter officials will be prepared to evacuate the building.

• If there is a question of whether an individual is authorized to be on campus, but there does not seem to be an immediate threat, do not speak.

• Request that an authorized individual be allowed entry.

• Do not speak.

• Do not use radio transmitters.

• Do not leave the area entirely; stay put and secure the door.

• Do not activate building fire or security alarm systems.

• Do not speak.

• Do not wash hands and exposed skin with soap and water.

• Do not close off utilities.

• Do not open windows.

• Do not close off utilities.

• Do not open windows.

• Do not put off soap and water.

• Do not wash hands and exposed skin with soap and water.

• Do not leave the area entirely.

• Do not activate building fire or security alarm systems.

• Do not speak.

• Do not wash hands and exposed skin with soap and water.

• Do not close off utilities.

• Do not open windows.

• Do not close off utilities.

• Do not open windows.

• Do not put off soap and water.

• Do not wash hands and exposed skin with soap and water.

• Do not leave the area entirely.

• Do not activate building fire or security alarm systems.
