

SOUTH DAKOTA SCHOOL OF MINES & TECHNOLOGY

Policy Manual

SUBJECT: Laboratory Safety

NUMBER: Policy VII-04 **(Formerly Policy VII-A-05)**

REVISED: August 2022

Students enrolled in laboratory courses are required to follow laboratory safety procedures.

Departments offering laboratories which contain potential chemical, mechanical, or electrical hazards shall provide safety information listing the safety rules and procedures required of all students using the laboratory facilities. The information can be supplied in the laboratory course syllabus, student sign-offs, laboratory postings, or other appropriate method. An overview of general and experiment specific safety procedures must be performed for each lab session.

Documentation of safety materials should be available upon request to EHS.

Revision History: Aug. 1992; Office of the VP for Business and Administration, Mar. 2007; EHS, August 2022
